

# Four of Cups

## **Traditional meaning:**

If you're feeling stuck, you need to look around you. The alternative is there already. The options are there. You just need to shake yourself loose of your rut and see it.

## **My Interpretation:**

The person is sad, contemplative, while looking at these three wooden cups they have. They are nice, but apparently not enough for what they want. They don't even notice that the heavens – the world - is giving them another cup. A tree is growing, leaves are blooming, and a cup is being handed to them. Almost energetically, too. But they don't see it. They have dark clouds behind them and are lost.
